METHODS OF ENTRY ON LANDS CHANGED

According to information received at the United States land office in Salt Lake from the general offices at Washington, nearly 200,000 acres of land in Iron county will be withdrawn from entry under section 6 of the enlarged homestead act. The reason for revoking the order of September 20, 1909, by which the lands might be entered under section 6, is that water has been discovered on the land in sufficient quantity for domestic use. It now will be necessary to live on the land, but under section 6 residence was not necessary. The order receiv ed does not prevent entries on the land up to 320 acres, but an entryman must live on the land. The land is in the vicinity of Lund.

FORMER OGDENITE ATTEMPTS SUICIDE

A report from the St. Marks' hospital at Salt Lake, at 2 o'clock this morning, said young Royal was alive, but in very serious condition.

In an effort to end his life, because of domestic troubles, William John Royal, son of Mr. and Mrs. John Royal of Thirlieth street, shot him-self at his home in Salt Lake City yesterday evening. While the young man was still living at an early hour this morning, his injuries are of such a nature that physicans entertain no hope for his recovery.

Young Royal is about 22 age and resided in this city, until about one year ago, when he went to Salt Lake with his wife, who was formerly Miss Bessie Orem of this The young man was employed in Salt Lake as a barber. While it was not known outside of the family that Royal had ever had any trouble with his wife, it is said that his attempt at suicide grew out of the infelicities of his home life.

The father of the young man is employed in this city as a watchman with the Southern Pacific com-When in Ogden the son worked at the Union station and was a popu ar young man. He was married in this city, about three years ago. A short time after the shooting the parents of the would-be suicide were notified and Mr. Royal left for Salt The mother, almost distracted by the news, spent the night at home awalting word as to the condition of her son.

Roy Mack, an intimate friend of Royal, was present at the time of the shooting. Mack entered the boiler room where Royal was working last night and as he did so Royal turned and asked

'Are you a friend of mine, Mack?" Certainly," Mack replied, whereupon Royal cried out; "Then don't interfere," and, drawing a revolver from his pocket, placed it over his heart and fired. The bullet graezd the membranes of the heart and lodged in the left lung. .

The police were called and took charge of the wounded man, having him removed to St. Marks hospital, At St Marks hospital in Salt Lake at 2 o'clock this afternoon it was stated that Royal was resting easy and that there was a good chance for his

INVALID WOMAN DIES IN BURNING HOUSE

CHICAGO March 5 -- Mrs. Mary A Whiting, an invalid, 75 years old, was asphyxiated in a fire, which destroyed the home of her son in Oak Park,

a suburb, today Members of the family and neighbors watched the futile efforts of fire-men to rescue Mrs. Whiting, who crawled to a second-story window and then sank back unconscious from the smoke.

STANDARD OIL MAGNATE DEAD

New York, March 6 -Richard Curd Tilford, a large holder of stocks of the Standard Oil company and other industrial corporations, is dead here from paralysis of the heart. He was 67 years old and a bachelor. His brother, Henry M. Tilford, was until recently vice president of the Standard Oil company.

GOOD ENTER= **TAINMENT**

Variety is the keynote of the Orbeum bill this week, headlined by a oung lady who is making audiences broughout the country sit up and take notice. The seven acts of the bill are all top-notchers and will make a mighty good show

"JULIET?"

The identity of "Juliet?" who comes with her humorous operacter studies and who always carries an interroga-tion point after her name is veiled in mystery. In view of the audience and with a human dressing table, Juliet? makes marvelously rapid changes for each of the many characters she presents. No one has yet been able to detect whence she whisks her wealth of costumes, for her complete and lightning changes, as she never leaves the stage for a second during her act. Her splendld ability to portray vari ous and varied folk is materially helped by a musical voice and an abun dance of vivacity.

"A CHILD SHALL LEAD THEM"

Winsome Una Clayton's latest suc cess is called "A Child Shall Lead Them" and like all other playlets in which she has appeared it is from her own pen. This little gem of a play is full of human interest with many a laugh and a few tears. most excellently played by Miss Clay-ton and her players. The motif of the little play is the genuine old-fashioned faith thoroughly modernized. The plot revolves around the efforts of Mag-gie, a walf, to get "her" baby adopted by a close-fisted millionalre, who is ery much more human at the bottom than on the surface. The sketch appeals on account of its delightful sin-plicity, its quaint comedy and the fine acting of Miss Clayton.

MAX HART'S SIX STEPPERS Max Hart's Six Steppers are a famly of dancers-four brothers and two isters who have mastered the terpstchorean art. The Six Steppers have created something new in clog dancng. Their individual dancing as well as their team work is exceptional, and at all times they dance as though the intricate steps executed were of gentine pleasure to themselves

CHARLES BROWN AND MAY

NEWMAN Charles Brown and May Newman n Original Nonsensicalities, succeed with a short bombardment of songs, tories and dances. Brown is a prod-ict of Geo. M. Cohan in "Forty-five Minutes From Broadway," etc., as is indicated by his style of dancing and singing. Miss Newman is a valuable adjunct, dainty in appearance and a capable singer and soft shoe dancer.

A. O. DUNCAN

A. O. Duncan is one of the most popular of all American ventriloquista His comedy is bright and new, appealing to grown-ups as well as chil-dren, and his dummy figures are so deftly handled that they really seem

FOR NEW ROADS

President Sproule of the Southern Pacific Issued an order a few days ago which indicates clearly the policy of his company as regards construction work. It has been ordered that construction of the Fernley Northern in Nevada be started at once and bids were invited from contractors.

This is part of the expansive of gram authorized by the officials at the head of the Harriman lines to be im-mediately started in northeastern California, Nevada and southern Orego whereby the expenditure of upwards

of \$30,000,000 is proposed.

The proposed lines to be constructed are as follows: California Northeastern ... Oregon Eastern160 miles .124 miles ernley Northern 12 miles 80 miles Walker Timber branch Modoc Northern Goose Lake & Northern. .160 mlle 'hico & Northern 120 miles

This makes a total of 746 miles of new railroad, the construction of which by the Southern Pacific will be well under way during 1912.

The last three companies in the table are to be absorbed into the United Pacific Rallway company of Utah, the legal successor of the old Central Pacific. This is why the former company's charter was amended in Salt Lake last Tuesday so as to empower it to purchase, own, hold and extend he roads.

It is expected that the new line be ing built by the Harriman lines as well as extensive improvements and expansion on the part of the Hill roads in Oregon will force the Western Pacific to build new branches in order to hold its business.

Taken altogether, the activities of the Southern Pacific as well as all by W. R. Armstrong, superintendent of the Harriman lines seems to foreshadow an era of prosperity and railroad expansion such as the west has not seen in years and, in a presidential election year, too, and if the in lications now mean anything lime-cry that the year preceding a presidential election must be one of etrenchment and financial hysteria, has been permanently suppressed.

MARKETING THE FRUIT

Manager J. M. White of the Utah Fruit Exchange leaves this afternoon for the eastern fruit markets to be gone six weeks or two months, during peared. Their work on the flying rings which time he expects to familiarize is exceptionally good and the comedihimself with the markets in the larger business centers and arrange with the more responsible dealers for handling of the fruit of the associations emraced in the Exchange.

He will visit Grand Junction, Den-eer, Topeka, St. Louis and Chicago on his way east and will afterwards in-vestigate conditions in Wisconsin, Iowa, Minnesota, Nebraska and the two Dakotas with a view to interesting the handlers of large quantities of western fruits in the Utah product

Mr. White's object at this time is to e among the first to make bargains for the crop and to be first on the ground for the selection of buyers. Some buyers last year were not the best and, as a result, the Exchange

in better condition for the handling of the fruit crop than heretofore and there is little question but that splen-did results will be obtained during the season. The asociations of Bear River, Willard, Provo and Ogden have agreed to permit the Exchange to han-dle their output and it is quite certain that other associations of state organization will do so at an early date. No prices have yet been fixed, but the greement is that the erop will be given to the Exchange for marketing, the prices to be regulated by market conditions.

Last year the Exchange started out without any pledged crops, but suc-ceeded in handling thousands of dollars' worth of fruit,

D A Smyth and family have turned from an extended visit in California

Mr. Smyth states that there are many tourists in Los Angeles and that San Francisco is regaining its old-time prestige. The entire state of Callfornia, however, is experiencing a drouth that is retarding agricultural development.

On his return home, Mr. Smyth learned of the appointment of his brother John Smyth, to the position of magistrate for the county of Cavan, Ireland. The following report of the appointment is taken from an Irish

"A correspondent writing of the ap pointment of Mr. John Smyth, J. P. as a magistrate for Co Cavan, that Mr. Smyth, since his first entarnce into public life, has been a staunch and consistent Nationalist and while faithful to his own political principles, succeeding in securing the esteem and good will of all creeds and classes, while his fearless denunciation of wrong-doing has endeared him to all. He has ever been noted for his unobtrusive manner, calm and BULL THROWING correct judgment, rectitude of purpose and scrupulous respect for the rights of his fellow-men, and will therefore be a very valuable accession to the bench at Cootehill. As evidence of the popular feeling, when the appointment became generally known bonfires blazed on many hills throughout the parish.'

SOUTH PACIFIC

VICTORIA, B. C., March 5.- News was brought by the steamer Makuda today of a disastrous hurricane in the Fiji and New Caledonia groups. A number of lives and many vessels were lost.

At Noukulofa every launch in the harbor was wrecked and half the town was destroyed, many persons being drowned by tidal waves which followed the blow.

The steamer Hornelen, from Columbia river ports for Auckland, encountered the hurricane in the Tongan group. Her masts were carried away, bulwarks and boats smashed and the deckload swept away. The fun-nels and bridges were the only things left on the deck when the vessel reached Auckland.

The steamer Croydon arrived at Auckland, forty-four days overdue from San Francisco, The schoolers Aeroplane and George de Laubardee were sunk at Nouemea several members of the Nouemea, several members of the crews being drowned. The schooner crews being drowned. The schooner Whitford went ashore at Banks is land, but the crew escaped,

DECLARED

Yesterday Sanitary Inspector George Shorten attended a meeting of the members of the state dairy and fool bureau in Salt Lake, at which the re-sults of tests of olive oil taken in bulk from the Ogden and Salt Lake dealers were announced.

The Ogden oil was free from adul teration, but some of the Sait Lake samples were found to contain a quan-tity of cottonseed oil. Every sample of Ogden oil was pronounced pure and entirely free from foreign substances. The investigation of other food sup-plies of the city recently made is flatering and the health department is satisfied that no other city in the state has a better and purer food sup-

BATTLESHIP IN DANGER SINKING

New York, March 6.- That the battleship New Hampshire narrowly es-caped sinking at the Brooklyn navy yard on Monday has just leaked out from unofficial circles. The battleship was about to be towed out of the dry dock after undergoing repairs. When the big dock was flooded three tugs made fast to the battleship and started to puil her out when one of the bluejackets discovered that a sea valve had been broken and water was pouring into the vessel in great vol-

ume. She was quickly replaced in the dock and the water pumped out. How the valve became displaced robably will be a subject for a court of inquiry. It is too far below the water line to have been accidentally knocked off and there is a suspicion that it may have been tampered with.

LOONS DEPART FOR THE ARCTIC

San Diego, Cal., March 6.- The first sign of spring, if a change in the sea-sons can be noted here was evident on San Diego bay today when a flock of loons, estimated to have numbered 10,000, mobilized on the surface the water and maneuvered to weird calls of their leaders until their formation was perfect. Then at a signs' the feathered visitors from the north which have been the unbidden guests of San Diego during the winter, rose and, in a wedge-shaped body headed for their summer home in the Arctic

ointing the way.

Many persons lined the bay shore and witnessed the strange mobiliza-tion which lasted for more than an

illiam Spry and party to the Pacific

CAINE TO ACCOMPANY

Lands and Products exposition, leav-ing here March 17 and arriving at Los Angeles March 19, which is the date set apart as Utah day It is intended by the Commercial club and the Utah Development league to exert every effort to insure not only a successful Utah day, but also one of the finest exhibits over sent forth by this state. The preparatory

work is well under way.

The committee decided to send letters of invitation to all Utah citizens known to be living in California where it is possible to obtain address es, asking them to attend the exposi-tion on Utah day and join in the exer-

Governors Judson Harmon of Ohlo and James H. Hawley of Idaho will arrive in Salt Lake March 17 and will oin the coast party of Utah boosters. Following Utah day Governor Spry Governor Harmon, Governor Hawley and Secretary Caine will go to San Francisco, where the state executives will select sites for their 1915 exposition buildings. It is understood that Utah will spend in the neighborhood of \$500,000 in connection with the exposition for exploitive purposes.

PROBLEM OF TEDDY OR TAFT IN MONTANA

Salt Lake, March 6 -S. M. Nicholon, deputy revenue collector for the district of Montana, came to town terday for a conference with his chief. E. H. Callister

"Sam" Nicholson is one of Montana's enthusiastic Republicans, and while he says there is no whether the state will send a Taft or a Roosevelt delegation, it is certain that Montana will roll up a big Re-publican majority for the party's "The people up in Montana," said New York City.

Mr. Nicholson, 'have not yet indicated a preference as between Roose-velt and Taft. The entrance of Senator Josph Dixon as Roosevelt's man-ager will undoubtedly strengthen the colonel's position in our state, but President Taft has a strong following, and no man can fortell what the party will do in the way of instruction to delegates

"If it were left to Montana Democrats to name their candidate for president, I think Bryan would be their choice. They have a warm feeling for Bryan up there. However, I suppose the state will send a Wilson delegates, either instructed or with Wilson leanings. Governor Norris is

for Wilson.

"Montana this fall will cast 5,000 more Republican votes than it did two years ago. The state is rapidly filling up with farmers from Iowa, Kansas and Nebraska, and they are all Republicans." Mr. Nicholson says business condi-

tions are improving. Agricultural progress is especially to be noted, he

TELLS FALSEHOOD TO GET EVIDENCE

Salt Lake, March 6.-On the witness stand in police court yesterday, during the trials of Mrs. A. H. Ewing and R. M. Park, charged with prac-ticing medicine without licenses, Miss lola Francis, a corset demonstrator, freely admitted that she was employ-ed by the state board of medical examiners for the sole purpose of seeking treatment at the hands of the defendants and thus gaining evidence

on which to prosecute them Miss Francis was the only witness called by the prosecution in either case. Following her examination the cases were continued until Saturday morning, when arguments will

presented. The point to be placed before Judge J. M. Bowman for decision in volves some interesting hypothetical conpectures. Among other things the court will be asked to determine whether the manipulation of a per-son's spine for the replacement of an injured vertebrae or the reduction of inflammation or a sprain, or the apolication of a lotion for the same purpose, constitutes practicing medicine

without a license In the case of Mrs. Ewing, Miss Francis testified that she went to the defendant's office January 26 and asked to be treated for a wrenched back, received in a railroad wreck, she said. The witness admitted uncross-examination that she had never been in a wreck and that there was nothing the matter with her

Then why did you go to Mrs Ewing??" asked the latter's attorney.
"To get evidence on which to prosccute her for practicing without a lithe witness replied.

"What you told her was false, then?" she was asked.
"Certainly," was the reply.
At this point Judge Bowman took a hand in the examination. He drew from the witness that she was in the employ of the state medical board and that she visited the office of R. M. Park, the other defendant, for the same purpose of gaining evidence.

STILL LABORING TO PREVENT A STRIKE

New York, March 6 .- The flat rejection by the coal operators of the demands of the anthracite miners is expected to be followed by the subnission of modified demands by the mine workers. A committee of coal operators will, at the conference with the miners next week, submit their reply to the miners, rejecting the de-

mands. The workers had expected that the demands would be refused, but that the operators would offer a counterproposal.

KILBANE TO GIVE ATTELL ANOTHER CHANCE

San Francisco, March 6 .- Johnny Kilbane, the new featherweight cham pion, filling a vaudeville engagement here, announced last night his willinguess to give his defeated rival, Abe Attell, an opportunity to regain the title, suggesting Labor Day as a convenient date. Meantime, he said, he intended to give himself a much need

Kilbane's theatrical tour will soon and him in his native city of Cleveland, where his friends have planned rousing reception.
